

OH WOW JOBS

The World's First Immersive Career Discovery &
AI-Powered Skill Certification Platform

"Step Inside Your Future. Train. Certify. Get Hired."

EON AI Ventures

THE PROBLEM

Education is broken for the AI era

\$50,000+

Average cost of a degree

Graduates pay tuition before knowing if they'll enjoy or succeed in the career. Most can't get hired after.

85M Jobs

Displaced by AI by 2027

New roles require hands-on technical skills. Community college costs \$8K–\$15K per program and takes 2 years.

0 Proof

Degrees don't show skill

Employers can't verify what graduates actually know. Degrees show attendance, not competence.

THE SOLUTION

OH WOW JOBS — A new category of platform

What It Is

Cinematic Sentient World video — step inside any career, free

AI Voice Mentor — certified expert for every course

AI-verified oral, written & XR exam — Integrity Suite

9,000 courses across 80+ countries

Dual diplomas from top universities incl. UC Riverside

Career Compass — maps skills to real jobs & income

The Learner Journey
