SOLUTION

While AI reshapes everything — real people are making real decisions right now.
Here's the only platform built to answer them.

 EON AI Ventures

59%

of young workers fear AI job displacement

Harvard Survey 2025

44%

of ages 16–34 considering a career shift

Jobs for the Future

\$280K

top electrician salary — age under 30

Fortune, March 2026

THIS IS HAPPENING RIGHT NOW

Real people. Real pivots. No time to wait.

Jackson Curtis, 28 — Tacoma, WA

Insurance worker → Firefighter candidate

"Even if AI could fight fires, people will always want empathy from an actual human during a moment of crisis."

Seeking AI-proof human connection

Ryder Paredes, 22 — Montclair, NJ

Computer science dropout → Electrician trade school

"At first I was in denial. But eventually I had to just face it." Vocational enrollment is up nearly 20% since 2020.

Stanford: -16% employment for AI-exposed grads 22-25

Jewel Rudolph, 25 — Tacoma, WA

Skipped college → Built her own açai bowl business

"There is security there — knowing AI isn't going to be able to take what I'm doing."

Self-funded. No debt. AI-resilient.

Luke St. Amand, 25 — New York City

Six-figure Amazon AI job → Founded education startup

"I worried I was training my nonhuman replacement. Now I use AI to grow my own business. I know I chose the right path."

Now using AI as a tool, not a threat

THE BRUTAL MATH: OLD WORLD VS. THE 1% SOLUTION

	THE OLD WAY	THE EON 1% SOLUTION
Time to job-ready	4 YEARS Studying a field AI may displace before graduation	90 DAYS Earn while you learn — credential in hand, job on day one
Upfront cost	\$40K/YR \$160,000+ in debt before your first paycheck	1% ImpactShare financing — zero capital risk, performance-based
Graduate employment	↓ 16% Employment drop for AI-exposed grads age 22–25 (Stanford)	↑ 107% Demand surge for skilled trades EON trains (Randstad)
Content delivery	LECTURES Passive learning disconnected from real job environments	AI + XR Immersive simulation — hands-on competence before day one
Employment link	NONE Credential with no connection to the actual job market	LIVE Career Compass™ maps every skill to real openings in real time

THE MARKET IS SCREAMING FOR THIS

Randstad · 50M job postings analyzed

WHY AN ENTIRE GENERATION IS PIVOTING

59%

of ages 18–29 see AI as a threat to job prospects

Harvard Survey, 2025

41%

believe AI will make work less meaningful

Harvard Survey, 2025

44%

of ages 16–34 are considering an AI-driven career shift

Jobs for the Future, 50K respondents

4%

of ages 55+ considering a shift — only the young feel the urgency

Jobs for the Future

The Pivot Is Already Happening

+20%

Vocational enrollment

since 2020 — driven by AI fears (National Student Clearinghouse)

+107%

Skilled trade demand

robotics technicians since 2022 — jobs that need human hands

-16%

AI-exposed grad employment

ages 22–25 in software, customer service (Stanford 2025)

44%

Career pivots in progress

of 16–34 year olds making or considering a shift right now

"Students definitely know it's going to have an impact." — High school counselor, Hoboken NJ (WSJ)

THE EON GLOBAL VIRTUAL CAMPUS: THE ONLY PLATFORM BUILT FOR THIS MOMENT

01 9,000 Courses

Every in-demand skilled trade — electricians, HVAC, robotics, construction, water systems. AI + XR immersive simulation, not video slides.

02 Career Compass™

Maps every credential to real job postings in the learner's region with live salary data. Skills → income, not skills → hope.

03 30-Day Deployment

From zero to a fully branded, operational campus in one month. No construction, no years of curriculum development. Live immediately.

04 1% Upfront — ImpactShare

Zero capital expenditure. Zero financial risk. EON and the institution succeed together. No debt trap for institutions or learners.

05 Earn While You Learn

90-day pathways to job-ready certification. Learners earn income while training — bypassing the 4-year debt spiral entirely.

06 EON Genesis AI Content

Generate fully immersive 3D training environments from a text prompt — a data center sim in minutes, not months. Infinite scale.

ONE PLATFORM. THREE AUDIENCES. INFINITE URGENCY.

Universities & Colleges

PROBLEM

Students are dropping out, pivoting, or arriving with AI fear. Enrollment in traditional programs is under pressure.

EON

Deploy a full virtual campus in 30 days with 9,000 AI-proof career pathways. 1% upfront — no capital risk. Dual diplomas. Career Compass links every graduate to a job.

"59% of young people see AI as a threat to their career." — Harvard

Governments & Workforce Ministries

PROBLEM

A 500K electrician gap. 44% of young workers considering a shift. No national training system moves fast enough.

EON

National Spatial AI Infrastructure — sovereign, end-to-end, deployed at scale. 3 tiers: mobile classroom kits → regional hubs → national flagship centers. Full data sovereignty.

"For every 100 young people entering manufacturing, 102 leave." — Randstad

Enterprises & Corporate Training

PROBLEM

Existing workforce needs reskilling before AI displaces roles. And you can't find the skilled technical talent you urgently need.

EON

9,000 immersive XR courses on any device. AI Brainy mentors 24/7. Safety-critical simulation: LOTO, electrical, HVAC. Career Compass maps talent to your open roles in real time.

"Employment in AI-exposed roles fell 16% in just 3 years." — Stanford

THE WINDOW IS NOW.

The crisis is documented. The demand is proven. The platform is ready.

30

Days

Deploy a full virtual campus — 9,000 courses, AI mentors, XR labs, Career Compass

1%

Upfront

ImpactShare financing — no capital expenditure, zero financial risk for any institution

90

Days

Average time from enrollment to job-ready certification — not 4 years, not \$160K in debt

"Education shouldn't be a debt trap — it should be a renewable resource."

— Dan Lejerskar, Founder & Chairman, EON AI Ventures
