

EON Tacit

The living memory of your organization

**Capture the judgment.
Verify the evidence.
Keep the expertise alive.**

The expertise that prevents failure lives between the lines

**40
YEARS**

of pattern recognition
can walk out in one
day.

THE SOUND

that signals trouble

THE EXCEPTION

behind the procedure

THE CUE

a novice never notices

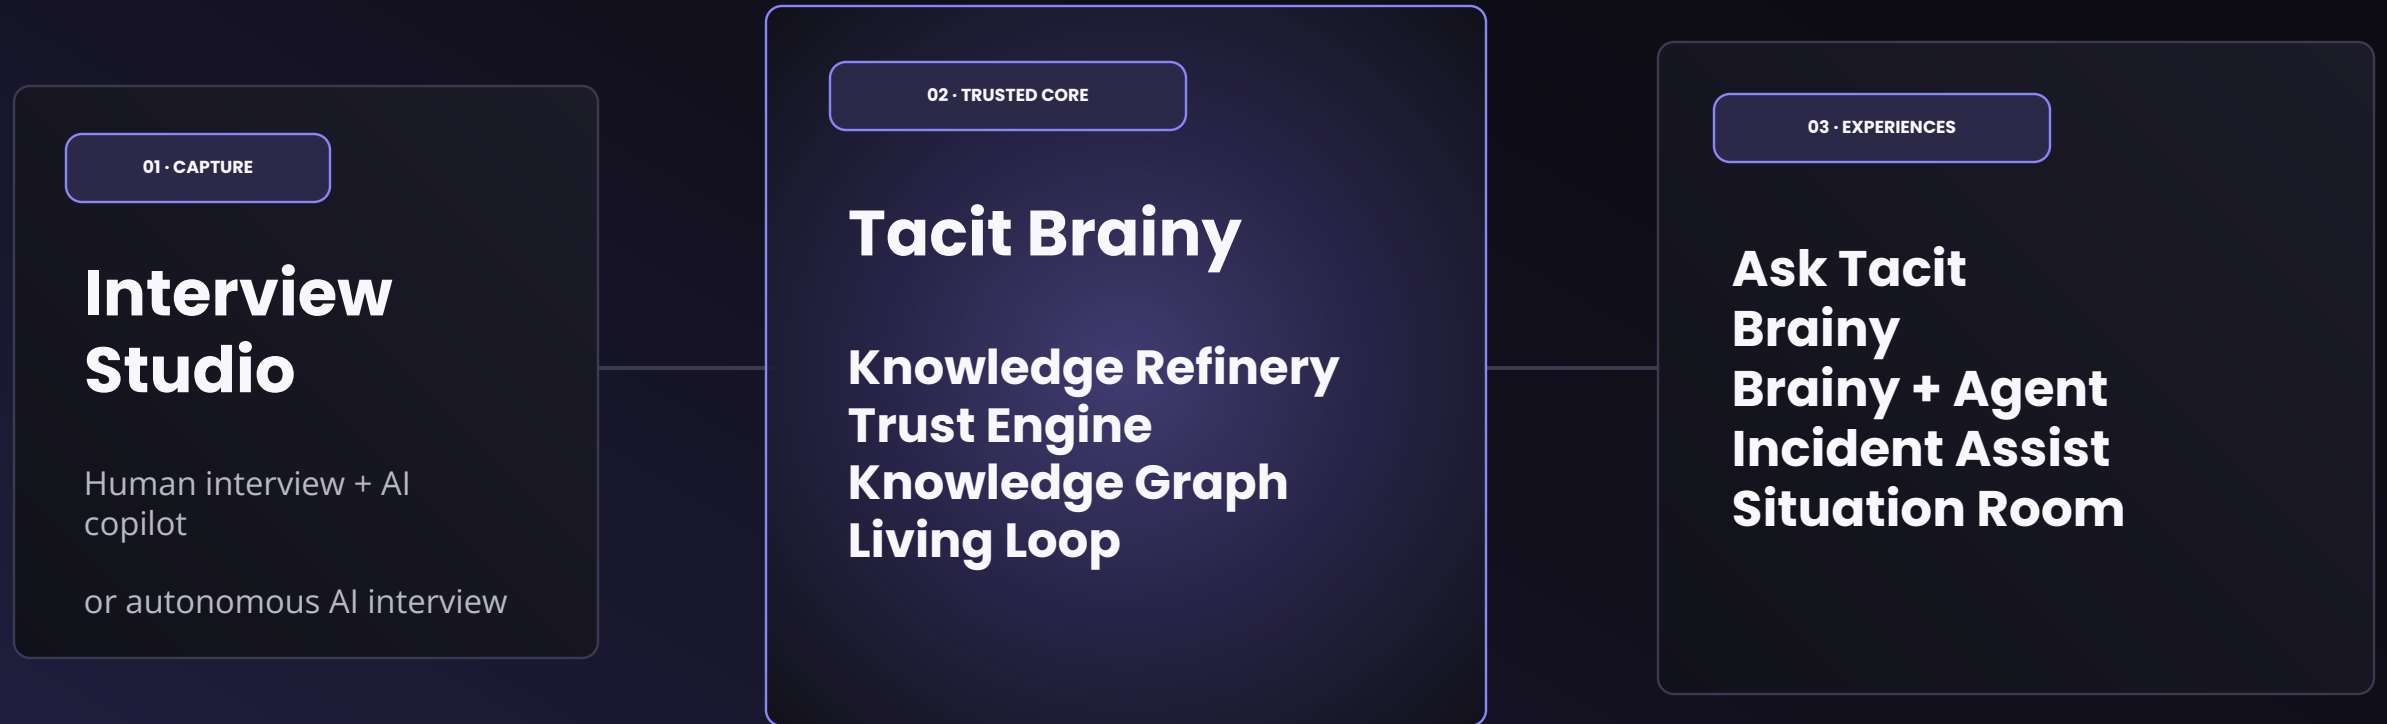

THE STORY

that explains the rule

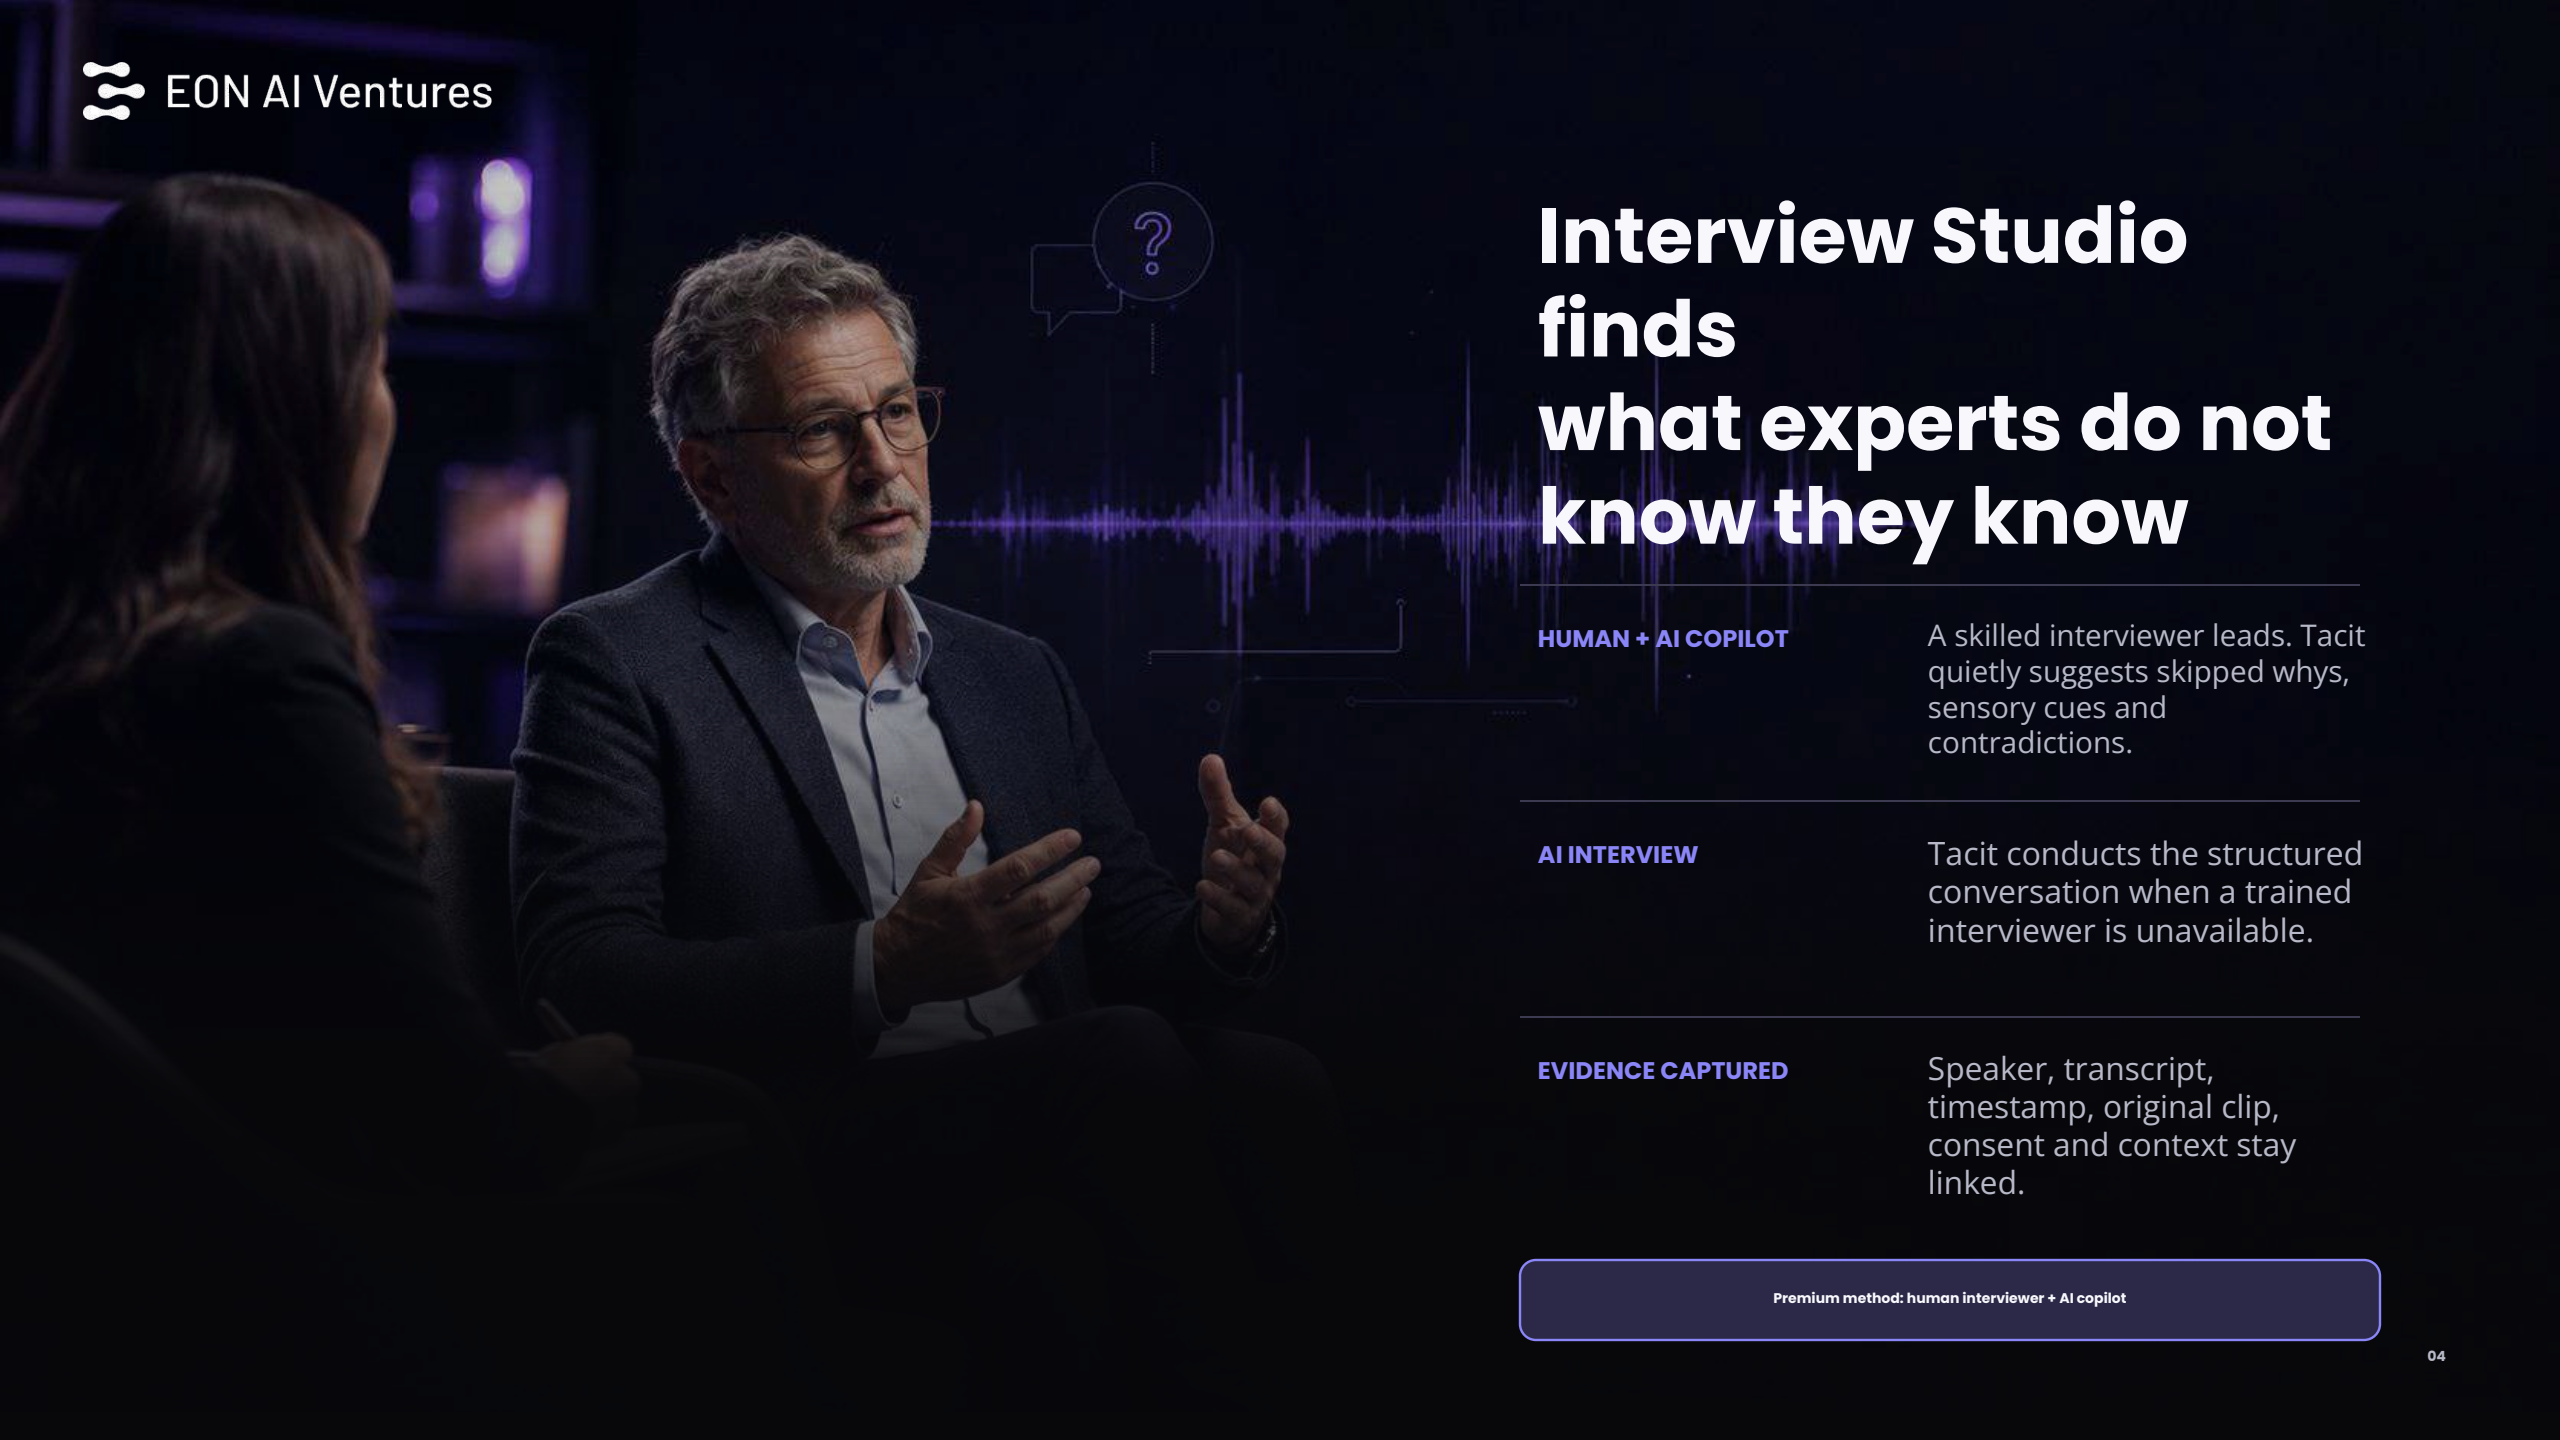

EON Tacit converts one person's experience into evidence-backed organizational memory.

One trusted brain powers every experience

The avatar, assistant and Situation Room are channels—not separate intelligence.

THE BRAIN — NOT THE AVATAR

Interview Studio finds what experts do not know they know

HUMAN + AI COPILOT

A skilled interviewer leads. Tacit quietly suggests skipped whys, sensory cues and contradictions.

AI INTERVIEW

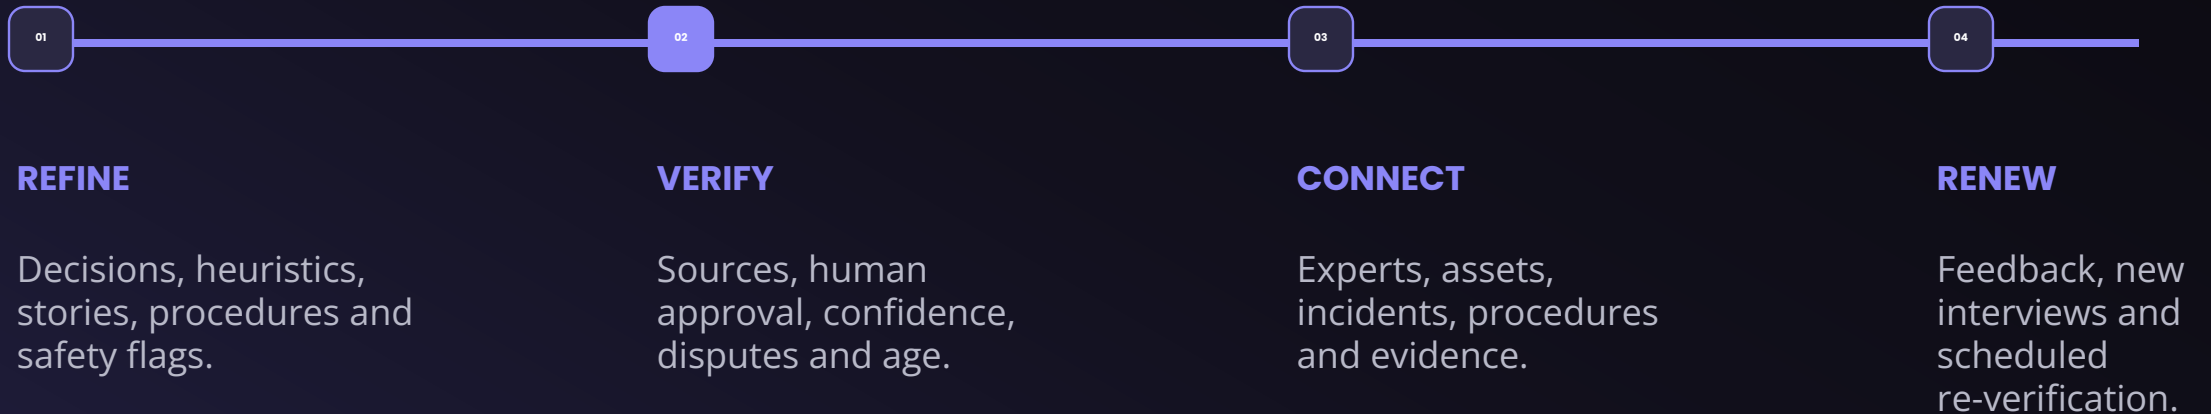

Tacit conducts the structured conversation when a trained interviewer is unavailable.

EVIDENCE CAPTURED

Speaker, transcript, timestamp, original clip, consent and context stay linked.

Premium method: human interviewer + AI copilot

Tacit Brainy makes captured experience usable, believable and alive

AI proposes. People verify. Unverified knowledge never masquerades as truth.

One answer. Four levels of presence and urgency.

EVERYDAY

ASK TACIT

Text or voice Q&A with citations

01

MENTOR

BRAINY

A verbal mentor that explains approved knowledge

02

IMMERSIVE

BRAINY + AGENT

Optional HeyGen or other embodied presence

03

CONTROLLED

INCIDENT ASSIST

Safety-first, procedure-aware, audited, advisory

04

SITUATION ROOM

**Hear it.
See it.
Learn it.
Try it.**
